“Medications and Dementia”

Presenter: Shelly Gray, PharmD, MS

Shirley & Herb Bridge Endowed Professor, Department of Pharmacy; Director, Plein Center for Geriatric Pharmacy Research, Education and Outreach School of Pharmacy, University of Washington.

Dr. Gray holds a PharmD from the University of Michigan, and a Masters of Science in Epidemiology from the University of Washington. She has been a faculty member at the University Of Washington School of Pharmacy since 1992, and prior to that, she was on faculty at the School of Pharmacy at the University of Wisconsin for 3 years.

Dr. Gray’s research focuses on pharmacoepidemiology in older adults and she has conducted several studies evaluating the risks associated with medication use (e.g. anticholinergics, benzodiazepines, proton pump inhibitors) and important health outcomes, including falls, fractures, dementia, and disability. She has been an investigator on numerous federally funded research grants and is author of over ninety peer-reviewed publications. She serves on the editorial board for the “Annals of Pharmacotherapy”, “Journal of the American Geriatrics Society” and “Research in Gerontological Nursing”.
