Geriatrics Didactic Series

"Discover: Develop: Deploy in the cell technologies, immune modulation space"

Presenter: Jacques Galipeau, MD FRCP(C)

Adjunct Professor, Hematology and Medical Oncology, Pediatrics & Medicine
Emory University School of Medicine

Jacques Galipeau, M.D. FRCP(C) is the Don and Marilyn Anderson Professor of Oncology within the Department of Medicine and UW Carbone Comprehensive Cancer Center at the University of Wisconsin in Madison, and is the Assistant Dean for Therapeutics Discovery and Development at the University of Wisconsin School of Medicine & Public Health. Dr. Galipeau is the director of the University of Wisconsin Advanced Cell Therapy Program whose mission is to develop personalized cell therapies for immune and malignant disorders and to promote and deploy first-in-human clinical trials of UW cell therapy innovations to improve outcomes for children and adults.

Dr. Galipeau is the Chair of the ISCT Mesenchymal Stromal Cell Scientific Committee.
