How to Find
the Medical Foundation Centennial Building (MFCB)

The Medical Foundation Centennial Building is located at 1685 Highland Ave. in Madison. Please use University Bay Drive, which becomes Highland Avenue as you head due North.
Directions to UW Medical Foundation Centennial Building

- From the Hospital or Clinics entrance (you will enter on floor 2), head towards the D elevator; you will pass an information desk and the gift shop
- Take the D elevator to the 3rd floor
- Make a soft right off the elevator through the doors with "To B" above them
- There will be windows in front of you and the hall will branch, take the right branch, and make another immediate right, you should be heading towards the Infusion Center, Hemodialysis, and the Burn Unit
- You will follow this hall around, passing the Infusion Center, Hemodialysis and the Burn Unit, all of which will be on the left side of the hall
- You will pass through a set of double doors and should be able to see glass automatic sliding doors.
- Go through the first set of automatic doors
- From here you can either take the elevator to the skywalk, which will take you to the second floor of MFCB, or you can go through the second set of automatic doors, which will take you outside with the entrance to MFCB directly across from you.
