#### Intended Audience:

The target audience for this activity is Cardiovascular Medicine Faculty (MD, DO), Physicians, Fellows, Residents, Physician Assistants, Nurse Practitioners, Nurses (RN, APRN, LPN), Lab Personnel. Some sessions will be relevant to Internal Medicine, Cardiothoracic Surgery and Pediatric Cardiology.

#### Objectives:

1. Apply current classification systems for severity and phenotypes of cardiogenic shock
2. Identify emerging tools and techniques for risk assessment and therapeutic decision-making
3. Assess the strength of evidence regarding the benefits vs. risks of mechanical circulatory support options for cardiogenic shock

#### Policy on Disclosure

It is the policy of the University of Wisconsin–Madison Interprofessional Continuing Education Partnership (ICEP) to identify, mitigate and disclose all relevant financial relationships with ineligible companies\* held by the speakers/presenters, authors, planners, and other persons who may influence content of this accredited continuing education (CE). In addition, speakers, presenters, and authors must disclose any planned discussion of unlabeled/unapproved uses of drugs or devices during their presentation. For this accredited continuing education activity, all relevant financial relationships have been mitigated and detailed disclosures are listed below.

\* **Ineligible companies** are those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. The ACCME does not consider providers of clinical service directly to patients to be ineligible companies.
