This conference is dedicated to Dennis G. Maki, MD, Emeritus Professor, Department of Medicine, School of Medicine and Public Health, University of Wisconsin-Madison, in recognition of his achievements and contributions as a physician, scholar, and educator in the field of Infectious Disease.

Intended Audience & Scope of Practice

This activity is intended for primary care physicians, physician assistants, nurses, and other health care specialists dealing with infectious diseases.

Elements of Competence

This activity has been designed to change learner competence and focuses on the American Board of Medical Specialties areas of patient care and procedural skills, and medical knowledge. This activity also focuses on the interprofessional competency of roles and responsibilities.

Statement of Need

Based on documented gaps in current practice, this activity addresses critical topics in Infectious Diseases identified through professional practice; local, regional and national data in healthcare quality; and requests from participants in related continuing education activities.

The overall focus of this activity is to discuss these practice gaps and provide participants with the knowledge, skills, tools and resources needed to change their professional practice and improve the care of their patients.

Objectives

This activity is designed to:

- Prevent, accurately diagnose, and optimally treat infectious diseases
- Employ new strategies to enact behavior change in patients
- Explain updated practice guidelines
