

Jeremy Slivnick, MD
Assistant Professor of Medicine

Jeremy Slivnick, MD, FACC, FASE, FSCMR, is a board-certified cardiologist and advanced cardiac imaging specialist at the University of Chicago with expertise in echocardiography, cardiac magnetic resonance, and cardiovascular CT. He earned his medical degree from the University of Illinois Chicago, completed his internal medicine residency at the University of Michigan, his cardiovascular disease fellowship at The Ohio State University Wexner Medical Center, and his advanced cardiovascular imaging fellowship at the University of Chicago, where he subsequently joined the faculty. His research focuses on leveraging multicenter data and artificial intelligence to improve the diagnosis and evaluation of hypertrophic and infiltrative cardiomyopathies—particularly cardiac amyloidosis—with cardiovascular imaging.
